SKILLS

- Basic Skills in Angular.
- Basic Skills in Html, Css, Js.
- Basic Skills in Java.
- Basic Skills in Android Studio

I acquire some fundamental understanding of programming languages like java, HTML, CSS, and JavaScript as a result of schools I have attended. I learned Angular throughout my internship, and I feel like I have a grasp in web development. I want to develop my personal skills, and I'm motivated and keen to learn new things.
